Your LIGHTSheer laser hair removal & BBLs™ skin rejuvenation training, rental and service provider
To you, our valued client, we pledge to:

- Provide thorough and comprehensive consultations including detailed explanations on why we recommend specific services and give realistic expectations of the result of these treatments. This will include a complete skin care program as well as a program for caring for your skin at home.

- We will treat each of our clients in a pleasant and professional manner. We will strive to make our place of business one which is enjoyable to visit and one in which you will feel comfortable referring friends and family.

- We will earn your business! We are aware that you have many choices for aesthetic services. Through our experienced staff, state-of-the-art lasers and equipment, advanced services and our integrity, we will provide you with a level of service superior to not only our competition here in Southern Ontario, but anywhere in the country.

Thank you very much for the opportunity to serve you.

We look forward to developing a long and successful relationship with all our clients. You can feel confident that you are receiving the best care in the business.

Our Fresh Approach To Skin Care.

Instead of false promises or exaggerated claims, our therapeutic treatments focus on serious skin care with formulations on the cutting-edge of innovation.

Expert Techniques: Our therapists represent the highest level of expertise in the professional skin care and spa industry having been trained at the world’s leading postgraduate facility, The International Dermal Institute. Specialists in their field, they provide an unparalleled level of expertise.

Laser Spa Group is dedicated to treating you with the finest service and products available. Our impeccable service standards and rigorous training programs ensure that every member of the Laser Spa Group Team provides outstanding service for your spa or medispa experience.

Effective Treatments: All our services are designed to provide maximum results in a minimum of time. 30, 45, 60 & 90 minute treatments are available at fixed prices, providing options for even the busiest schedules.

Thank You
GRATUITIES
As in all service related businesses, it is common practice to tip the person who has done a good job to the satisfaction of the client or guest. If you are pleased with your service, 10% is customary.

CLIENT FEEDBACK
Your comments and suggestions are vital to us if we are to provide the quality of service that is aligned with our mission statement. We appreciate and are open to them.

GIFTING

GIFT CERTIFICATES
Give the gift of energy and time to someone special. Beautifully designed and presented, all services, packages, and series treatments are available as Gift Certificates for that special occasion. Customized packages are also available. Phone and mail orders are welcome, or you can also visit www.laserspagroup.com to purchase your gift online. Please check with our receptionist to see if the client you are buying for has a wish list established with us. Feel free to contact us for more information.

GIFT CARDS
Dollar denominations for gift-giving is also available through our convenient gift card program. Laser Spa Group Gift Cards work like a debit card. Value in the form of dollars is stored on the card and deducted when paying for spa services. The card can be used to pay for all spa services, not including retail products. Any unused balance remains on the card for future use. Additional value can easily be added to the card at any time. Gift Cards are not refundable for cash, only medispa credit.

SERIES TREATMENTS
Any of our Face and Body Treatments may be purchased as a series that can be redeemed over a period of time.
As we would like your day to run as smoothly as possible, the following ‘medical spa etiquette’ will help prepare for your visit.

**RESERVATIONS**
We recommend scheduling your appointment a minimum of two to three weeks prior to your arrival for the widest selection of times and treatments. Walk-ins are welcome based on availability. Treatment times in our Menu are approximate in duration.

**STANDING APPOINTMENTS**
Find the best time in your schedule for booking your regular appointments whether it is weekly, bi-weekly or monthly.

**CANCELLATION POLICY**
Please respect our schedule by keeping appointments. If you must reschedule or cancel, please notify the Clinic 24 hrs in advance so that we may release your obligation and allow another guest to enjoy our services. You will be charged for services that are not cancelled within 24 hours. No-Shows will also be charged in full. 48 hours notice is required for Fraxel and other longer treatments and services. Same day bookings are considered confirmed.

**PUNCTUALITY**
To assure timely service to all our clients, we recommend that you check-in 15 minutes prior to the start of any appointment to find our location, allow for check in procedures, fill in your intake questionnaire, change into attire and receive full consultation. Lateness may result in customizing your service to fit the remaining booking time. We run by appointment and would like you to enjoy the full length of your service without shortening your experience.

**PERSONAL ITEMS**
We are not responsible for lost or stolen items and encourage you to keep valuables at home.

**MEDISPA ETIQUETTE**
Our clinic is designed to provide a treatment experience. As such, we ask our guests to turn off cell phones and electronic devices during your procedures.

**HEALTH**
Please let us know ahead of time if you are pregnant, have any health problems such as high blood pressure, etc., if there has been any changes since your first treatment or procedure, or if you have any special needs or requests.
**SPA SERVICES**

**Bronzed Tuscan Tan**
The world's best sunless tan. This is the finest formula on the market applied via a unique airbrush technique that produces an all over body and face tan. Transforms skin into a darker shade in 4-6 hours.

**THERMOCOAGULATION WITH THERMOCLEAR**
Do you have visible signs of aging through dark brown spots, broken capillaries (red spider veins), cherry angiomas, sebaceous hyperplasia, embarrassing skin tags, milia or cholesterol deposits? This treatment is a definite must for you. These procedures can achieve results some lasers cannot.

ThermoCLEAR is a radiofrequency current that is attracted to the water in various skin conditions. It uses a tiny probe on the surface of the skin to dehydrate the problem area, causing the body (over a few days) to exfoliate the dried skin that removes and clears the skin of the condition. The procedure is minimally invasive, is virtually painless and requires no down time.

MASSAGES

Registered Massage Therapy (RMT)
To revitalize and nourish the body, our 30, 45 or 60 minute massage therapy treatments are provided according your specific needs from light, moderate to deep tissue techniques through a Registered Massage Therapist to relieve muscle tension, promote good circulation and alleviate stress for an overall sense of well-being.

Massage * Relaxation Therapy * Swedish * Shiatsu * Deep Tissue *
30 min ...................................................................................................................................................................... $50
45 min ...................................................................................................................................................................... $70
60 min ...................................................................................................................................................................... $85
90 min ..................................................................................................................................................................... $110
30 min Pre-Natal ...................................................................................................................................................... $50

- Registered Massage Therapy available by appointment only.
- Registered Massage Therapy receipts cannot be issued to gift certificate guests.

Hot Stone Body Treatment
Goes beyond the physical experience of typical massage, and enters deeper dimensions of relaxation, health and well-being, creating a positive approach to bodymind-spirit philosophy. Allow the soothing warmth of basalt stones to melt away your stress and muscle soreness. This treatment also balances the body’s chakras.
30 min ...................................................................................................................................................................... $55
60 min ...................................................................................................................................................................... $95

- Hot Stone Body Treatments available by appointment only.

Aroma-Therapeutic Body Massage
A relaxing massage using 100% pure essential oils to lift your senses and relax your body. This specialty massage uses specific techniques to assist the movement of the lymph system. Very gentle pressure addresses conditions such as fluid retention, heavy legs, cellulite, and results in general detoxification.
30 min ...................................................................................................................................................................... $45
60 min ...................................................................................................................................................................... $75

- Not recommended for therapeutic work but relaxation only.
Insurance receipts are not available for this service.
HAND & FOOT TREATMENTS

We use Deborah Lippmann products for your manicures and pedicure treatments. This A-List Celebrity manicurist has created shades that are chic, long-wearing and easy to apply. Shades contain Okoume (a natural nail strengthener from a tree in Africa), Biotin (a cell regenerator) and Green Tea. Polish contains no formaldehyde, toluene or dibutyl phthalate.

**Manicure (45 min)** ...........................................$25
Treat yourself to a professional manicure that leaves your hands and nails smooth, healthy and well-groomed. This service includes nail shaping, cuticle work, hand massage & polish.

**Shellac Manicure (60 min)** ...........................................$40
Not a fan of regular manicures, but don’t want to ruin your nails with acrylics or gel nails? Try Shellac Manicures. You might be saying Shellac, hmm what is this exactly? Shellac is a cross between gel nails and traditional nail polish. It gets applied like regular nail polish.

**Spa Manicure (60 min)** .......................$45
Same treatment as above but also includes our exfoliation, hot aromatic towels and paraffin treatment.
Pedicure (60 min) ...........................................................................................................................................................................$50
Indulge by treating yourself to our aromatic footbath, followed by nail shaping, cuticle work, callous removal, foot massage and polish.

Spa Pedicure (75 min).................................................................................................................................................................$65
Same treatment as above but also includes foot exfoliation, hot aromatic towels and paraffin treatment.

Foot Detox (20 min).....................................................................................................................................................................$60
Package of 10.....................................................................................................................................................................................$475
As humans we are all contaminated with toxins from environmental pollutions such as those found in our food, water, air, and even our clothing, furniture and other household items. These make the body prone to illnesses. Some harmful effects of toxins include fatigue, depression, decreased sex drive, and skin problems like rashes, blotches, wrinkles, and dullness. Ionic Foot Bath Detoxification removes harmful toxins and cellular wastes. Through the process of osmosis, oppositely charged particles like toxins are neutralized and eliminated from the body. The neutralized toxins are removed through the 2,000 sweat glands of the feet and are released into the water. This aids in weight loss, as the body rids itself of chemical wastes like fatty acids and subcutaneous fat that slow down metabolism and inhibit proper digestion.

Teen (13-19 years)
Manicure .........................................................................................................................................................................................$20
Pedicure .........................................................................................................................................................................................$42

Our Makeup Artists and Skin Technicians would be happy to offer you a complete makeup or skincare consultation to enhance your knowledge and appearance with Jane Iredale Mineral Makeup. The skin care makeup for your face.

The most beautiful cosmetic you can wear is a healthy skin. That's why everything that Jane Iredale develops is a true extension of skin care. Our makeup is not just a refinement of conventional makeup; it's a new technology. It's so effective it is recommended by plastic surgeons, dermatologists and skin care professionals.

Makeup Application (45 min)........................starting at $60-$90
Makeup Lesson (60 min) .........................................................$100
Photo/Bridal Makeup (60 min) .......................starting at $75
Bridal Trial Makeup (60 min)............................starting at $50

BRIDAL TIPS
• Schedule your hair trial after your headpiece has been purchased.
• Hair should be trimmed 2 weeks prior to the wedding.
• Hair removal and Facial should be done 1 week prior to the wedding.
• A massage will help relieve stress prior to the wedding.
• Manicure & Pedicure should be done the day before the wedding.
• Please schedule your hair and makeup appointments 6 months before the wedding.
• Please schedule your spa appointments 3-4 months in advance.
• Lash Dip or Lash Extensions should be applied the day before the wedding.

TINTS & LASHES
Lashes and Tints to dye for!

Lash Tint.......................................................................................................................... $25
Brow Tint .......................................................................................................................... $15
Brow & Lash Tint ............................................................................................................. $35
Brow & Lash Tint & Brow Wax .......................................................................................... $50
Brow Wax & Brow Tint ..................................................................................................... $30
Brow Wax & Lash Tint ..................................................................................................... $40
Eyelash Perming (Includes Tint).......................................................................................... $65

This is a semi-permanent method of curling your eyelashes. Curled lashes will enhance the appearance of the eyes and can make the eyes look larger and will normally last between 6-8 weeks.
Misencil™ Eyelash Extensions First Visit ................................................................. $150
Have long and natural looking eyelashes with rich and dramatic curve. Permanent eyelashes that are longer, thicker and safe for your natural eyelashes. Misencil™ eyelashes are also soft, comfortable and waterproof and will last up to 6 weeks. Wash your face, feel safe in the sauna & swimming pool; they won’t come off.

Misencil™ Eye Lash Extension Fills ................................................................. $50 and up
after two to three weeks .................................................................................... $50.00-$75.00
four weeks or more ............................................................................................ $85.00 and up
*please note the price of the fill is directly dependent on the number of lashes that remain. If more than 75% of lashes are gone (regardless of when the touchup appointment is booked), the higher cost bracket will be charged.

Lash Removal ....................................................................................................... $20
We offer the removal of eyelash extensions

Lash Dip
Lash Dip is an innovative cosmetic application that is poised to revolutionize the mascara industry. Imagine the freedom! "Dipping" your lashes just once allows you to wake up to and maintain gorgeous lashes for up to six weeks! No hassling with mascara. No makeup remover. No mess. No more raccoon eyes! Just gorgeous, beautifully sculpted, semi-permanent painted lashes when you wake up in the morning, through your exercise routine, and when you go to bed at night.

Lash Dip Only ...................................................................................................... $150
Upper and lower lashes fully dipped to perfection!

The Glam Lash ..................................................................................................... $260 and up
Our 'Super Flutter' adds volume and length throughout your lash line with application of Lash Dip as well as our inserts (extensions) for volume. Our fullest and most enchanting look!
*price is directly dependent on the look desired and number of lashes applied

The Volume Lash ................................................................................................ $225
Our 'Sultry Flutter' adds volume and density while maintaining the natural length of the lash. We add Lash Dip with inserts (extensions) for volume.

The Natural Lash ................................................................................................ $175
Our 'Suttle Flutter' matches the length of the natural lashes and adds soft length to the outer corners. We add an application of Lash Dip as well as our inserts (extensions) to the outer corners only.
SKINCEUTICALS MEDICAL SPA FACIALS
SkinCeuticals provides complete skincare solutions through dermatologists, plastic surgeons, medi-spas, and other skincare professionals in Canada and in over 35 countries worldwide. These experts trust SkinCeuticals to promote skin health - not trends. Choose from the following list of facials for your skin concerns.

Delicate Skin Repair
SkinCeuticals developed a facial, especially for reactive and sensitive skin. It has been hugely successful and is established as the premier facial for sensitive skin conditions, including rosacea. We use a combination of anti-inflammatory SM Gel Peel and SkinCeuticals Vitamin C Firming Masque, which reduces erythema caused by rosacea. A special Phyto Corrective Gel also acts to hydrate the skin, without leaving it oily, while its anti-bacterial/antiseptic properties help heal and calm sensitized skin. As well as our blend of SkinCeuticals products, this treatment also includes the use of healing red light and soothing cold therapies.

Acne Skin Treatment
This therapy is for the treatment of inflamed, irritated, acneic skin types that are sensitive to other products.
It combines a detoxifying masque with soothing, corrective and protective products.

Deep Pore Cleansing Facial
This facial is perfect for mild acne sufferers or those with blocked pores who feel their skin needs a deep cleanse. The combination of thorough extractions with products helps to clean, brighten and reduce oil without drying and gives the skin the hydration it needs. Botanicals in Phyto-Corrective help to heal acne, while the Clarifying Clay Masque draws out impurities and oils, which can be harmful to the skin.

C Firming Facial
The C Firming Facial is ideal for the client who desires luminous, hydrated and firmer looking skin. The facial leaves the skin feeling and looking healthier with a radiant, firmer complexion — ideal for all occasions when clients desire a glowing, visibly youthful appearance.

All SkinCeuticals Facials are $125
Rediscover your skin with SilkPeel™ Dermalinfusion™ that gently removes epidermal cells to treat a vast range of skin imperfections: sun damage, acne, acne scarring, uneven granular skin, fine lines, wrinkles, aging skin, enlarged pores, blackheads, scars and stretch marks. The SilkPeel™ is a new format dermabrasion that provides non-invasive exfoliation and the delivery of skin specific topical solutions under pressure. Unlike traditional technologies that rely on messy crystals or other irritating particles, SilkPeel™ Dermalinfusion’s™ diamond tip head evenly abrades the skin at a depth of 30 microns, exfoliating damaged skin cells while delivering targeted topical solutions deep into the skin. This treatment offers immediate results with no downtime. A newly developed body wand similarly allows the operator to treat a range of skin types and conditions associated with the body.

Four Infusions to exfoliate and infuse your skin: Lumixyl – for dark spots & uneven tone; Salicylic Acid - for acne; Hyaluronic Acid - for fine lines & dryness; Vitamin C - for sun & stress damaged skin.

This clinically proven concept of skin re-surfacing can be used by itself or as a combined therapy with lasers and other light treatments. It is the most effective, controlled technique for the removal of dead skin cells, and results in a much smoother, revitalized skin. Recommended in a series for optimal results.

**SILKPEEL™ Full Face** .................................................................................................................................................................$130

Choose from:
- Hydrating Formula - Hyaluronic Acid - for fine lines & dryness
- Vitamin C Formula - Vitamin C - for sun & stress damaged skin
- Clarifying Formula - Salicylic Acid - for acne

**SILKPEEL™ Full Face Brightening Formula - Lumixyl – for dark spots & uneven tone (30min)** .................................................................$150

**SILKPEEL™ Lumixyl Series of 6** .................................................................................................................................................$840

**SILKPEEL™ Full Face Hydrating, Vitamin C or Clarifying Series of 6** .................................................................................................$675

**SILKPEEL™ Decollete or Back** ...............................................................................................................................................$200

EXFOLIATION TREATMENTS
**SILKPEEL BODY**

**Neck & Décolletage** – improve texture, photo-damage, and hyperpigmentation. Reverse damage from years of sun exposure on the skin of the chest/décolletage.

**Acne on the Back/Shoulders & Chest** – there is finally treatment for truncal acne that cannot be treated easily with traditional topical serums and creams.

**Lower Décolletage & Breasts** – get rid of stretch marks, and fade the surgical scars, and post inflammatory hyperpigmentation on the skin after surgery (breast augmentation, reduction, reconstruction, and/or mastectomy).

**Upper Arms & Legs** – Finally, an effective treatment for Keratosis Pilaris (KP), those little bumps that form, typically on the back your arms, and legs.

**Stomach, Lower abdomen, buttocks and thighs** – fade stretch marks, tighten skin, and smooth out skin tone and cellulite for a beautiful healthy looking skin on the bikini exposed areas of your body.

**Bikini Line/Intimate areas** - Many women deal with razor burn and related hyperpigmentation in this sensitive skin are after getting waxed, or a laser hair removal. Ingrown hairs can also be painful. SilkPeeling this area can restore healthy skin and an even skin tone.

**Knees, Elbows and Heels** – Remove the callouses and soften the skin on your knees, elbows and feet.

Your SilkPeel trained professional will apply a set of SilkPeel Body treatments and solutions that are tailored for you specifically. Often, that will include a set of 4 to 6 treatments spaced about 7 to 10 days apart. They will use the Hydrating Pro-infusion solution, the Clarifying Pro--infusion solution, the Vitamin-C Pro-infusion solution, and/or the Lumixyl Pro-Infusion solution to treat the skin texture, tone and hyperpigmentation. The benefits to the appearance of your skin will come from this patented set of technologies in a way no other procedure can deliver.

*Priced Upon Consultation

**MICRODERMABRASION**

This treatment gently removes epidermal cells to treat a vast range of skin imperfections: mild sun damage, acne, uneven granular skin, fine lines, enlarged pores and blackheads. The Diamond tip head evenly abrades the skin at a depth of 30 microns, exfoliating damaged skin. It is the most effective, controlled technique for the removal of dead skin cells, and results in a much smoother, revitalized skin with immediate results and no downtime. Recommended in a series for optimal results.

**Microdermabrasion Full Face**..................................................................................................................................................$75

**Microdermabrasion Full Face Series of 6**..........................................................................................................................$375

**Microdermabrasion Decollete**.....................................................................................................................................$125

**Microdermabrasion Back**............................................................................................................................................$150
How Do Skinceuticals Peels Work?
The peel speeds up your natural skin’s healing process by stimulating the production of collagen and improving elastin fibres which give skin its youthful form and shape. It also revitalizes sensitive skin and helps improve the appearance of irritated or inflamed skin. In-office epidermal peels are a non-invasive way to immediately resurface and improve the health of skin with no downtime.

Which Peel is Right For Me?
There are three different types of SkinCeuticals Peels at Laser Spa Group:
* MicroPeel (AHA – Glycolic Acid 20% - pH 1.6 or 30% pH 1.4
* MicroPeel Plus (BHA – Salicylic Acid 20% no pH or 30% no pH + Glycolic Acid 3%)
* The Pigment Balancing Peel (Glycolic Acid 40% + Citric Acid 10% + 27% pure Vitamin C + 4% Emblica pH 1.6).

They are categorized by the strength of the acid solution used in the peel and how deeply they penetrate the skin and what condition we are treating for what you may be best suited for. We will discuss this in our consultation with you.

The SkinCeuticals MicroPeel
The SkinCeuticals MicroPeel 20 or 30 is a three-step clinical procedure combining exfoliation, chemical peel solution using 20% or 30% glycolic acid, and a Vitamin C firming masque, to reduce the appearance of fine lines and wrinkles, hyperpigmentation, laxity, dullness, and skin imperfections. For optimal results, 2 series of 4-6 procedures per year are recommended.

Per Treatment.................................................................................................................................$150
Series of 6.......................................................................................................................................$750

What does the Micropeel accomplish?
- Improves the appearance of epidermal lines
- May eliminate the feeling of dry skin
- Refines the appearance of pores sizes
- Evens the appearance of epidermal pigmentation
- Makes skin appear smoother and feel softer
- Reduces the appearance of dull skin

The SkinCeuticals Micropeel Plus
The Micropeel Plus is a unique one-step treatment of chemical exfoliation designed to reduce acne and help correct environmental skin damage. Micropeel plus 30 and 20 are formulated with a combination of salicylic acid to refine pores and help reduce the appearance of acne, dissolves the oily skin coating and removes excess skin cells and skin debris. Glycolic acid aids in improvement of rough texture, blotchiness, and uneven skin tone.

Per Treatment.................................................................................................................................$150
Series of 6.......................................................................................................................................$750
What acids are in the Micropeel Plus?
Micropel plus 30 Solution – 30% salicylic acid and 3% glycolic acid in an anhydrous delivery system help reduce acne and correct environmental damage. OR
Micropel plus 20 Solution – 20% salicylic acid and 3% glycolic acid in an anhydrous delivery system help reduce acne and correct environmental damage.

What does the Micropeel Plus accomplish?
- Helps to control breakout
- Reduces sebum production
- Decreases comedones and refines the appearance of pores sizes
- Improve skin texture
- May cause initial increase acne breakout while skin purges.

The SkinCeuticals Pigment Balancing Masque
The SkinCeuticals Pigment balancing masque contains a mixture of apigment balancing solution containing 40% Glycolic acid and, 27% Vitamin C masque, when mixed up this solution become a peel which is specifically designed to brighten pigmented skin. This treatment is effective for skin with a mottled appearance or uneven skin tone. This is a stronger superficial peel with a combination of skin brightening, anti-inflammatory and peeling agents to stimulate new skin cell growth and reveal healthy skin below. Contains a high potency Vitamin C and Embilica to lighten and suppress excess pigment production. (Masque does not contain hydroquinone (HQ) but has similar effectiveness to prescription strength 4% HQ). For best results use in conjunction with advanced discoloration skin corrector and retinol.

Per Treatment ...........................................................................................................................................................................$150
Series of 6 ................................................................................................................................................................................$.750

What does the Pigment Balancing Masque accomplish?
- Fades dark spots
- Improves skin tone
- Increases skins radiance
- Diminishes fine lines and wrinkles
- Improvement of laxity
PHOTO REJUVENATION

BBL Photo rejuvenation reduces and eliminates the unsightly sun damage visible on your skin. Most of us recognize this as freckles, fine lines and the larger brown age or liver spots. Whether on your face, hands, neck, chest or back, this treatment can make you look like you’ve turned back time. With an average of six treatments spread out at three-week intervals, BBL Photo rejuvenation stimulates the production of collagen. As the new collagen forms, fine lines and wrinkles are decreased. BBL technology improves both the superficial and deeper skin layers and rejuvenates the skin while at the same time delivering beneficial thermal energy to deep issue. After a series of treatments, you can see a significant reduction of unwanted pigmentation and the appearance of smoother, revitalized skin.

The light’s activity also stimulates new collagen growth and tightens underlying skin resulting in smoother skin texture and reduction of fine lines. A series of 4-6 treatments is recommended. Treat fine lines, acne, red spots, facial veins (telangiectasia), rosacea, redness and flushing, freckles, hyper pigmentation, sun damage and brown spots.

Photo Facial Full Face Single Treatment ..................................................................................................$200
Photo Facial Face & Neck Single Treatment .........................................................................................$250
Photo Facial Full Face, Neck and Decollete ..........................................................................................$325
Photo Facial Face Series of 6 Treatments ..............................................................................................$1,050
Décolleté Treatment .................................................................................................................................$250
Hands Treatment ......................................................................................................................................$100
Spot Treatment (cherry angioma, hyperpigmentation) ...........................................................................starting at $50 - $150
**LEVULAN PDT (PHOTODYNAMIC THERAPY)**

Levulan Photodynamic Therapy is an FDA approved treatment for Actinic Keratosis, utilizing a solution called Levulan also known as aminolevulanic acid or kerastick. Levulan acne treatment inactivates the bacteria that trigger acne, exfoliates the skin to unclog pores, and decreases the activity of overactive sebaceous glands in the skin. ALA/PDT treatment has the unique ability to minimize pores and reduce oil glands, effectively treating moderate to severe acne vulgaris, acne rosacea, sebaceous gland hyperplasia, actinic keratosis (skin cancer prevention) and even improve the appearance of some acne scars.

One Levulan and BBL™ combination treatment, can achieve the same results of 4 treatments of BBL™ alone. At least 2-4 monthly sessions will be necessary and more may be needed. However, there is downtime with Photodynamic therapy and strict sun avoidance is necessary for 48 hours post treatment.

Priced upon consultation

**BBL ACNE TREATMENT**

The bacteria responsible for acne, P. Acne, can be killed by either a light treatment with blue light or deeper bacteria can also be treated by lasers which can travel deeper into the pores. The treatment is simple, quick, pain-free, and requires no down-time. It is appropriate for mild to moderate acne. Our BBL is especially effective in women who experience localized acne on their chin with their hormonal cycle, adult hormonal acne for men and women, as well as teenage acne.

At Laser Spa Group, we may suggest combining other treatments for best results. We would recommend a weekly routine of blue light BBL treatments combined with any of these additional services: Chemical Peels, Medical Facials, and/or Medical Grade Skin Care Products (Cosmeceuticals) and the Clairsonic can help augment the treatment by exfoliating the dead, outer sloughed skin which blocks the pores. The P. Acnes often resides in these blocked pores, so unclogging the pores can be extremely beneficial.

**COLLAGEN INDUCTION THERAPY — MICRONEEDLING**

The e-Dermastamp uses very fine needles to promote tissue stimulation and skin rejuvenation. Collagen induction therapy works by stimulating your own body’s collagen. Your body will start to naturally regenerate the skin, working below the surface in the dermis. To produce Collagen, treat scars/scar revision, treat hyperpigmentation and stretch marks.

**PLATELET RICH PLASMA (PRP) FACIAL**

PRP Facial is different from Vampire Facial or Vampire Facelift, though growth factors are important and utilized in both procedures. Platelet Rich Plasma (PRP) for Facial applications is obtained by using a centrifuge to separate plasma that is rich in growth factors from patients’ own whole blood. After drawing your blood, (less than that normally taken for routine blood tests), the blood is placed in a vile and spun in a high speed centrifuge to separate the plasma from the red blood cells. The process concentrates the platelet-rich plasma — often called ‘liquid gold’. The PRP is then applied to your skin with micro-needling process to stimulate the creation of new skin cells and regeneration of damaged cells. It also be injected into the skin. The benefits of PRP facial using microneedling techniques includes:

- Youthful appearance
- Skin tightening - Acceleration of collagen production
- Skin glow - formation of new blood vessels under the skin
- Eradication of wrinkles and fine lines
- Skin tone and texture improvement
- Dark circles under the eyes and eye puffiness
- Rosacea
- Eradication of acne scars, sun damages, Stretch marks

ENDYMED 3DEEP SKIN TIGHTENING FOR FACE & BODY
Our 3DEEP Treatments Help You Look as Young as You Feel

EndyMed’s 3DEEP RF treatments stimulate your body’s natural collagen renewal process leading to skin tightening and a reduction in the appearance of wrinkles. Consult our clinic and choose from body contouring, facial skin tightening, or body tightening.

3DEEP Facial Tightening treats the face, jowls and neck areas with a three dimensional tightening and contouring treatment that provides deep, volumetric dermal heating and is ideal for smoothing wrinkles, tightening and firming the skin and lifting facial and neck areas.

Body skin tightening contouring and cellulite reduction for decollete upper arms, knees, tummy, flanks, bottom, hips and thighs.

We offer a series of treatments, in one or two-week intervals. You should start seeing improvement in your skin following the second or third treatment, but more improvement will gradually appear as the treatment course progresses and will continue to do so for up to six months following the completion of the treatment course. As new, healthier collagen is formed, more natural looking and firmer skin will be produced.

Cost from:
- Lower Face: $250 per session
- Lower Face: Package of 6 $1,250
- Orbital Bone (Upper and Lower Eye Area) Per session - $175
  Package of 6 $875
- Neck: $250 per session
  Neck: Package of 6 $1,250
- Face & Neck: $475 per session
  Face & Neck: Package of 6 $2,375

- Full Legs including Buttocks: Package of 6 $3,000
SKIN RESURFACING

ENDYMED 3DEEP® FRACTIONAL SKIN RESURFACING (FSR) TECHNOLOGY
The natural aging process normally begins in the mid- twenties (20s). Premature aging may occur from photodamage caused by long-term sun exposure, environmental factors such as urban pollution, hereditary and lifestyle factors including smoking, alcohol consumption and poor nutrition. Collagen breakdown is accelerated, excessive melanin (pigment) is produced, hyaluronic acid (which helps plump the skin) slows down and free radicals break down skin cells. The result is fine lines and wrinkles, impaired skin pigmentation, texture and skin tone. These problems, as well as certain other skin conditions may be improved by Fractional Skin Resurfacing (FSR).

Endymed fractional skin resurfacing (FSR) is a 3 dimensional skin resurfacing treatment that combines micro-fractional RF skin ablation with volumetric dermal anti-wrinkle effect. This provides deep dermal heating to the lower skin layers and micro-fractional ablation to the top layer of the skin. Endymed FSR is safe, comfortable and very effective at treating skin concerns on the face and body, with minimal downtime.

3 DEEP® Fractional Skin Resurfacing (FSR) will help your skin to look and feel younger. It helps to combat the signs of aging and sun damaged skin by:

- improving skin textural irregularities and tightening sagging skin
- softening fine lines and wrinkles
- increasing new collagen production
- minimizing enlarged pores
- reducing brown spots or blotchy skin coloring (hyperpigmentation)
- diminishing various kinds of scars including acne or chicken pox scarring
- reducing the depth of stretch marks

A course of treatments normally consists of 3 to 5 sessions spaced 4 to 6 weeks apart. The number of treatments required, however, will depend on the nature and severity of the problem. We will consult with you to customize a treatment regimen to deliver optimal results.

EndyMed FSR Per Session: $400
Pkg of 4 FSR $1400
FRAXEL LASER TREATMENTS
Fraxel treatment is a safe, non-invasive procedure that allows you to rediscover the fresh, healthy skin of your youth. Our newest laser stimulates the body’s own natural healing process replacing damaged skin with fresh, glowing, healthy skin, removing years from your appearance. Since your skin is unique, our staff can develop a Fraxel treatment plan tailored to your skin’s individual needs.

Fraxel® laser treatment produces tiny, microscopic sites of thermal impact separated by areas of unaffected, healthy tissue. Each treated spot, called a MicroThermal Zone, stimulates the body’s own natural production of new collagen in the dermis and eliminates old epidermal pigmented cells on the skin’s surface. The spared healthy tissue contains viable cells that promote rapid healing of the outer skin layers. Since only 20% of the skin is treated by the Fraxel® laser on each visit, there is speedy healing and minimal downtime. Fraxel® laser smoothes fine lines and wrinkles on the face, including around the eyes. It reduces sun damage, improves texture and tone of the skin, and fades brown spots, sun spots and pigmentation on the face, neck, chest, back, forearms and hands. Fraxel® laser treatment results in fresh, healthy skin and a renewed sense of confidence. All skin types benefit from treatment.

What Fraxel Laser Treats:

Wrinkles. As you age, your skin thins, droops and loses its elasticity, which can lead to wrinkles. Wrinkles on the face and neck can also result from years of smiling, laughing and squinting — all of which involves the contraction of muscles. The skin around your eyes is especially prone to wrinkles because it’s more delicate than other areas of the body and tends to age much more rapidly.

Age Spots or Sun Spots
Age spots, also known as sunspots or photodamage, are flat, uneven, dark patches on areas of the body regularly exposed to the sun — such as the face, neck, chest, hands and arms. These spots form when your skin, in an effort to protect your body from ultraviolet rays, produces too much melanin.

Roughness (texture)
As you age, skin loses its smoothness, particularly in areas on the face and chest that are more commonly exposed to regular sunlight.

Melasma
Melasma appears as irregular patches of brown skin on the forehead, cheeks, upper lip and nose. Sometimes called the “mask of pregnancy,” melasma can affect anyone, but it’s most common among women — especially during hormonal fluctuations associated with pregnancy, oral contraceptive use or hormone replacement therapy. Melasma patches can be darkened by exposure to the sun.
Acne Scars
The Fraxel laser can smooth acne scarring by stimulating collagen to fill in the depressions in skin caused by acne, resulting in greatly improved texture and smoother appearance to your skin.

Stretch Marks
Stretch marks can occur in the dermis, the elastic middle layer of skin, that allows it to retain its shape and are a result of a breakdown in collagen and elastin in the skin. The Fraxel laser induces collagen growth and resurfaces the skin gradually, resulting in an improvement in the quality and texture of stretchmarks. This is the first treatment for stretch marks that actually works! There is simply nothing else like it for improving the appearance of your skin and giving you a renewed sense of confidence.

Fraxel™ Full Face.......................................................................................................per tx $750 / series of 4 $2,500
Fraxel™ Neck...........................................................................................................per tx $300 / series of 4 $950
Fraxel™ Décolleté....................................................................................................per tx $750 / series of 4 $2,500
Fraxel™ Hands.........................................................................................................per tx $150 / series of 4 $450
Fraxel™ Stretch Marks..............................................................................................per tx from $350 and up / series of 4 from $1,400 and up
Fraxel™ Partial Area or small ‘spot treatment.................................................................per tx from $100 and up

*Back, arms, limbs, larger areas and stretch marks will be assessed and priced during consultation. The fees quoted above are starting from prices for those areas.

Before
After
**BOTOX™ COSMETIC**

Botox™ for cosmetic and aesthetic applications has been much talked about and has been used successfully in the field of cosmetic enhancement and facial rejuvenation. Botox™ can clear years from your face in a procedure that takes a matter of minutes. Botox™ is a safe, and virtually non-invasive procedure. Botox™ can decrease the strength and action of the upper facial muscles. By relaxing these muscles, the overlying frown lines, glabeller wrinkles, squint lines, crow’s feet, nasal crunch lines, and horizontal forehead wrinkles becomes relaxed. Other Botox™ applications include lifting the brow and opening the eyes, smoothing the bags underneath the eyes, relaxing drooping cords in the neck, and for the treatment of migraine headaches. Botox™ is at the forefront of the ever-evolving field of non-surgical cosmetic aesthetic enhancements.

**Botox™ Cosmetic**

Priced upon consultation

**Botox™ Treatment for Excessive Sweating (Hyperhydrosis)**

Botox Cosmetic has proven to be quite an amazing drug. Now, in addition to its wrinkle-reducing properties, we have found it to be amazingly effective in treating problem sweating of the palms, soles, and underarms. It seems to simply ‘turn off’ the sweat gland. Studies have shown that a single treatment of Botox Cosmetic generally lasts from 6-12 months in reducing or eliminating problem sweating.

**Botox™ Treatment**

Priced upon consultation

**COSMETIC DERMAL FILLERS**

Filler substances are used for fine lines, wrinkles, lip augmentation, laugh lines, scars, marionette lines, jowl lines & facial lipoatrophy (volume loss). Fillers are injected directly into the dermal layers of the skin causing a diminution of lines, wrinkles and scars. It lasts up to one year, depending on the area being treated, the depth of the lines, the condition of the skin and the lifestyle of the individual. Most people return at 9-24 month intervals.

**JUVEDERM**

Refresh what nature gave you. Luckily, now there’s Juvederm™, a soft replenishing injectable gel. Made from hyaluronic acid, a naturally occurring sugar found in your body, it adds volume to minimize the appearance of wrinkles, thinning skin and lips. Hyaluronic acid injections have also been shown to stimulate collagen production. Best of all, the results are instant and natural-looking, there’s no downtime and it has been demonstrated to be safe for all skin tones.

**Juvederm Treatment**

Priced upon consultation

**SOFT LIFT**

Soft Lift is the nonsurgical facelift method, a new patented treatment that uses both BOTOX® Cosmetic and dermal filler in a single session. Soft Lift™ is a trademarked procedure that is frequently performed at Laser Spa Group. Every Soft Lift™ treatment is customized for each patient. The treatment combines the use of facial filler with a wrinkle smoothing injection to instantly refresh and rejuvenate your face. No two procedures are exactly the same, and it relies on the admirable skill of an expert medical injector.

**Is Soft Lift™ nonsurgical facelift painful?**

The procedure does involve injections. Any discomfort is generally brief and minimal. We take the utmost care in ensuring your comfort for the duration of treatment. The filler is formulated with lidocaine, a pain-reducing medication, to make the injection a more comfortable experience. Feel free to browse our website for plenty of before and after photos of this amazing treatment.

**BOTOX & FILLERS**

Botox™ and Injectable Fillers are available by appointment only.
MICROPIGMENTATION (PERMANENT MAKEUP) AND MICROBLADING

Imagine being able to look in the mirror every day and see perfect eyebrows, striking eyes and full lips. You'd look fresh and confident, ready to go anytime. Permanent Makeup, also known as Micropigmentation and Cosmetic Tattooing, is the process of depositing natural pigments into the superficial layers of the skin in order to enhance a person’s features. Using a small sterile micro-needle, the natural pigments are inserted between the dermis and epidermis, creating a lasting cosmetic effect. This effect creates a visual illusion where hair or colour is missing.

Eyebrows (Fill-In) .............................................................................................................................................................................. $450
Eyebrows- Microblading (Hair-Stroke) ................................................................................................................................................. $500

Colour Corrections - priced upon consultation

• Micropigmentation is available by appointment only.
• All Permanent Makeup Services include 1 touch-up within 3 months from the first treatment at no cost.
LUMICELL WAVE 6 CELLULITE & BODY CONTOURING

The Lumicell Wave 6 is a cellulite management system which offers a combined approach to targeting cellulite-related problems including:

- Dimpling of the skin
- Orange peel appearance
- Localized fat deposits
- Heavy legs
- Skin contour irregularities
- Rippling of inner thigh

The combination of energy technologies dramatically targets and reduces localized cellulite deposits, producing long-lasting results!

Photo-pneumatic Massage - the powerful vacuum assisted deep tissue massage releases lymphatic blockages and stimulates blood flow combined with infrared light; which warms up the tissue to induce elimination of stored fat and toxins.

The Ultrasound treats the deeper fatty layers, reducing localized fat deposits by liquefying stored fat and preventing the storage of additional fat in the fatty cells and encouraging fat depletion.

The Bipolar Radiofrequency increases collagen production, tightening and visibly improving the skin's appearance. The treatment firms the skin tissues by tightening the existing collagen fibers and stimulating the production.

Meso-esthetic - The Lumicell Wave 6 also has a "Needle-Free" Meso-esthetic function. Transdermal delivery of mesotherapy products, rich in fat burning ingredients further encourages the break-up of adipose tissue.

Lumicell Wave 6 per session.................................................$175
Lumicell Wave 6 package of 6.................................................$900
Lumicell Wave 6 package of 12.................................................$1,500
COOLSCULPTING - FREEZE YOUR FAT!
Say Hello to CoolSculpting® Say Goodbye to Stubborn Fat.
It’s called stubborn fat for a reason: no matter how much you eat healthy and exercise, it’s virtually impossible to lose those annoying muffin tops, love handles, and belly pooch. You’re left with two options: live with them or think surgery. Neither is cool by us. That’s exactly why CoolSculpting was developed. Only CoolSculpting targets fat cells alone, eliminating them in an easy, non-intrusive fashion that exercise and diet can’t achieve as quickly or as effectively.

Unlike a lot of other procedures, CoolSculpting takes very little time and is pretty simple to fit into your daily life. After your CoolSculpting treatment you can typically get right back to your busy day. Each treatment lasts one hour – the same time you might spend at the gym. So you can easily fit your appointment into a lunch break. After one visit, you’ll typically see a noticeable reduction of fat. It takes a few months to fully realize the effects, mainly because it takes that long for your body to naturally dispose of the fat cells. And yes, you can lose even more with additional appointments if necessary. So after a few months, your clothes will fit better and you will look better. What’s more, there are no pills or supplements. And as long as you maintain your normal diet and exercise, your long-term results should remain stable. Hello, you again. How cool is that?

The price for CoolSculpting varies, depending on your areas of concern, the number of treatments needed and your ultimate goals. We would need to assess you in person to help estimate the cost. Typically, you’ll see a noticeable reduction of fat in the treated area after one visit, but you may appreciate even more fat reduction with additional treatments.

Typical treatment areas for permanent fat reduction include arms, upper abdomen, chin, lower abdomen, love handles, lower back fat, bra fat, inner thighs and outer thighs.
BELKYRA FOR DOUBLE CHIN
Men and women across all age groups complain about fat pockets underneath their chin because it makes them look older and heavier, and robs them of confidence in their appearance. Double chins often resist dieting and exercise, and can be caused by aging, genetics or weight gain.
There’s a new kid on the block. Meet BELKYRA™, the latest addition to the Allergan family. (The makers of Botox and Juvederm). BELKYRA™ is, a non-surgical treatment that improves the appearance and profile of double chins as Belkyra Injectable™. Similar to facial fillers, an injectable liquid is inserted into the fat under the chin, and then breaks down the unwanted fat. A lecithin-type of chemical, it disrupts the cell membrane of fat cells releasing the content and gently smoothing out the cell pockets until your double chin is a thing of the past. Your body has significant capacity to remove free fatty acids and glycerol, safely and effectively.

COOLSCULPTING FOR DOUBLE CHIN
NEW TREATMENT TO ELIMINATE YOUR DOUBLE CHIN

- The #1 non-invasive fat reduction treatment can now treat under the chin
- Results in just 1-2 visits
- Requires no needles, surgery, or downtime

IN A RECENT CLINICAL STUDY USING OUR NEW COOLMINI™ APPLICATOR: 1

- 83% of patients were satisfied with their results
- 8 out of 10 patients would recommend the procedure

Second CoolSculpting™ Session
PICOWAY TATTOO REMOVAL
If you have a tattoo that no longer harmonizes to your current lifestyle we now have an efficient exit door to eliminate it.

PICOWAY® is a NEW laser treatment: a picosecond laser system for the elimination of tattoos. A short pulse of intense red light emitted by a laser PicoWay is selectively absorbed by the tattoo ink localized in the dermal skin. This laser energy causes the tattoo ink to fragment into smaller pigment particles that are removed by your body's immune system. Dark tattoos can have larger ink masses and may require several sessions of treatment to break the ink into small enough particles for the body to dispose of. One will note that the tattoo gradually fades from one session of treatment to the other.

The number of treatments will depend on the size of your tattoo as well as its age, location, depth, type of ink and color. One must take into consideration that the exact number of sessions of treatment necessary to remove any given tattoo is therefore impossible to predict. But with PicoWay not only fewer treatment sessions are generally necessary, as few as 5 to 6 sessions compared with up to 15 to 20 with conventional lasers

.. priced upon consultation
LASER HAIR REMOVAL

A LASER produces a beam of highly concentrated light. The light emitted by the LightSheer Diode laser is well absorbed by the pigment located in the hair follicles. During the procedure, the laser pulses for a fraction of a second, long enough to heat up the hair and significantly impede the follicle’s ability to re-grow. This process also treats numerous hair follicles simultaneously. Therefore, LightSheer is appropriate for treating even the largest areas of the body, and all skin types both quickly and effectively.

You should expect to need 4 to 6 treatments per area to maximize laser hair removal, and encourage you to book a consultation, so that we can individualize a plan for you. Everybody comes in different shapes and sizes and has different types of hair, as we will discount your services accordingly. If you require more than 6 treatments, we can do any additional treatments at a discounted ‘maintenance’ or ‘touch-up’ price. Also, if you’ve had laser hair removal done elsewhere and were dissatisfied with the results, we may be able to give you an additional discount.

Please remember that the experience of the technician also plays a big part in how many treatments are needed. If your technician misses hair follicles during a treatment, you will have to pay again to have those hairs removed. We have performed several thousands of treatments to date, have almost 20 years experience as medical aestheticians and laser technicians. We are also clinical educators for laser hair removal training. We have chosen the LightSheer Laser to perform your hair removal treatments, which is the gold standard in laser technology from a company that is a leader in their field. Many lasers used by other companies are much less expensive to purchase or utilize old technology or IPL machines for hair reduction, which ends up costing the consumer more because it can take twice as many treatments per area for complete results.

Consultation Fee (fee reimbursed ) ..............................................................................................................................................................................................$50

Great news for men and women who want to get rid of excess hair! Prices below may be subject to change. Prices do not include taxes, and upon your consultation, the amount of hair will be assessed, and a written quote will be given and effective for 6 months. We recommend purchasing a package at a discount for your laser hair removal needs. 6 treatments are typically needed for facial areas (finer to medium haired areas), 4 treatments are average for body areas (medium to coarser haired areas). Results may always vary. Packages are also non-transferable, and we also offer package pricing for treatment area combinations not outlined below.

- Prices may be subject to change. • Prices do not include service tax 13%. • Consultations and test patches are FREE.
- We recommend purchasing a package at a discount for your laser hair removal needs. 6 treatments are typically needed for facial areas (finer to medium haired areas), 4 treatments are average for body areas (medium to coarser haired areas). Results may vary.
- Packages are non-transferable. • We also offer package pricing for treatment area combinations not outlined above.
- During consultation, a written quote will be given and effective for 6 months.
LASER VEIN REMOVAL

Millions of women are bothered by unsightly spider veins or thread veins which make them feel embarrassed to wear shorts, skirts or swimsuits. In the past, this problem could only be solved through painful procedures and surgery, but those days are mercifully over. Spider veins, or telangiectasias, are those small red, blue and purple blood vessels that appear most frequently on the face and thighs. Laser Vein Removal is a non-invasive procedure known as VascuLight LaserTreatment. Lasers deliver concentrated light in a specific wavelength of the spectrum. Each wavelength is absorbed by a different target or chromophore, such as pigment, blood, or water. The light pulses heat the blood within the leg vein. The heat of the blood affects the vessel lining, which causes the vessel to constrict and eventually fade from view. This same technology can also be used to remove or reduce unwanted facial veins. It is necessary to shave the treatment area immediately before beginning laser treatment. If hair is present, it will absorb the laser energy and burn, causing discomfort. The number of treatments required varies with the size and depth of each vein. For the maximum long-term resolution, multiple treatments may be necessary. However, if new veins appear, additional treatments are required. Treatments may be in 3 - 4 week intervals. Often more than three treatments is necessary to achieve full clearance of leg veins.

Laser Leg Vein Removal (2x2 spot size – or per 15 min intervals) .......................................................... $100
Laser Leg Vein Removal Series of 6 - 2x2 spot sizes ............................................................................. $500
SKIN365 Membership Programs
Living a Healthier Lifestyle is easier with a Laser Spa Group Membership

Wouldn’t it be nice if you could get free services, preferred appointments, special treats on your Birthday, friends and family referral bonus, discounts on top of discounts (we bet you haven’t heard of that one before!) and an A-list celebrity treatment every time you go the Spa?

No you’re not dreaming… this is for real and our Skin365 Spa Membership Program makes it all happen for you.

Your skin is the largest organ of your body, as well as the most visible. That’s why it’s so important to take good care of it your entire life. Just as you probably get your hair cut regularly, and stop in for a manicure or pedicure from time to time, you need to take care of your skin on a routine basis in order to correct and prevent the signs of aging. The fountain of youth for your skin can be as simple as using good daily skin care products and getting non-invasive treatments on a consistent ongoing basis.

A Spa Membership makes it possible to incorporate regular services into a personal wellness program such as facials to promote healthy skin and massage as for its therapeutic benefits such as promotion of healing, and relief of stress.

At Laser Spa Group we have made this an affordable reality with our new Skin365 membership programs.

Primary Membership - $177/month
Monthly, you will receive the following:

2 Complimentary Skin or Body Treatments: Choose TWO treatments from the following list of services:
- EndyMed Skin Tightening – Choose Lower Face Or Neck Or Peri-orbital Bone
- IPL Photofacial – Choose from Full Face Or Neck Or Decollete  • SilkPeel Dermalinfusion

Recommended by leading Dermatologists and Celebrity makeup artists alike, Diane Ranger and Colorescience are truly blending the line between Colore and Science. In 1976, Diane first revolutionized the cosmetic industry when she founded Bare Escentuals and invented mineral makeup, which in turn created the multi-billion dollar mineral makeup industry.

Colorescience is the evolution into the 21st century of mineral colore skincare. Completely free of the dyes, talcs, fillers, mineral oil, perfumes and other ingredients found in traditional lines, Colorescience gives you beautiful results without disrupting healthy skin function. The line encompasses the essence of colore and the advancements in science to give your skin instant and long-lasting results.

Our Colorescience Sunforgettable Pro SPF 30 and SPF 50 gives you sun protection for 6 hours. Did you know that almost every SPF on the market lasts only 2 hours, and if not re-applied after 2 hours you do not have sun protection. At noon time, wouldn't it be nice to apply a mineral makeup based product that slips into your bag, not only covering up your afternoon shine but also giving you extended coverage for the rest of your day? AND, as an added bonus, sunforgettable is great for children, and is also water-resistant.

**prep & prime**

Colorescience Face Primers SPF 20 are the first step to improve the colore and texture of skin. Smooth your skin’s complexion, minimize the look of pores and fill in fine lines and wrinkles. Choose the primer that addresses your individual skin concerns and set the stage for seamless makeup application.

**sunforgettable**

Sunforgettable SPF 50 is a lightweight mineral powder with a barely-there feel that provides the safest, non-irritating, instant UVA and UVB sun protection. The self-dispensing powder brush makes this breakthrough, sheer formuls easy to apply and reapply throughout the day.

**foundations**

Colorescience Foundations provide the customizable coverage you need to even out your skin tone and enhance features. These lightweight, highly-pigmented foundations provide beautiful colore that can be blended and layered for a flawless finish that lasts all day.
OXYGENETIX

Oxygenetix is a breakthrough foundation to cover, help heal and minimize - even eliminate - procedural scars.

Designed for doctors, Breathable foundation covers and treats a wide variety of skin problems: skin injuries, wounds, rashes, cracked, dry skin, acne scars, rosacea and other skin conditions. On post-surgical scars, patients are re-assured and impressed that after care includes safely camouflaging any evidence of surgery.

Besides being the first truly breathable makeup, the foundation contains Ceravitae Complex, a patent-pending formula proven to increase oxygen uptake, stimulate skin cell production and help promote the healing process following most procedures.

This second skin technology creates a delivery system allowing Ceravitate to:
1) speed connective tissue reconstruction
2) systematically build collagen layers
3) reinforce natural skin healing.

The Results:
1) Less down time
2) Complete, undetectable coverage from day one
3) reduced scar tissue
4) continuous protecting with continued use.

Oxygenetix Foundation is also: * Water Resistant up to 90 minutes * SPF 25 * Blendable, Color-corrective shades * Transfer Resistant
* Hypo allergenic * Completely non-irritating, even to acne, rosacea, psoriasis, or eczema
SKINCEUTICALS
PREVENT PROTECT CORRECT PHILOSOPHY
ADVANCED SKINCARE BACKED BY SCIENCE

To maintain and improve skin health, an effective skincare regimen must contain three fundamental elements: Prevention, Protection, and Correction. The SkinCeuticals product philosophy is built around these principles. Designed to prevent future damage, protect healthy skin, and correct previous damage, SkinCeuticals is committed to advanced skincare products that are backed by science.

PREVENT
Ultimate protection from environmental skin damage
Even the best broad spectrum sunscreen can only block up to 55% of the damaging free radicals generated by UV exposure, but SkinCeuticals antioxidants are specially designed and clinically proven to provide the most advanced protection from environmental aging. When used together, SkinCeuticals antioxidants and sunscreens provide ultimate protection by preventing the visible signs of photoaging and promoting optimal skin health.

PROTECT
Effective protection against photoaging The SkinCeuticals line of sunscreens provides broad spectrum UVA/UVB protection. Formulated with Z-COTE® transparent zinc oxide, skin is protected from the entire spectrum of damaging UV rays, not just sunburn. Unlike the pasty, white zinc oxide sunscreens of the past, SkinCeuticals sunscreens are formulated with cosmetically elegant textures.

CORRECT
TARGETED TREATMENTS FOR SPECIFIC SKIN CONCERNS
Whether you’re concerned about wrinkles, hyperpigmentation, acne, redness or all of the above, SkinCeuticals’ corrective products are formulated to exfoliate, repair and rejuvenate the skin. Our range of creams, serums, masques and targeted treatments for the delicate eye and lip areas have been clinically tested and shown to work synergistically with the rest of your SkinCeuticals regimen to provide optimal results.

We will customize your home care routine with one of our experienced Medical Aestheticians.
